

PRIME MINISTER AND OTHER MINISTERS VERIFIED IN SITU OPERATIONS OF THE NEW TALARA REFINERY

Lima, Peru, September 20, 2024 – Petróleos del Peru S.A. "Petroperú" or "the Company" (OTC:PETRPE) announced today that, the prime minister and members of the Ministry of Economics and Finance and Ministry of Energy and Mines visited facilities of the New Talara Refinery and verified that it has been producing fuels of the highest quality. The Prime Minister, Mr. Gustavo Adrianzén, and the other public servants, verified in situ the status of the New Talara Refinery (NRT), which is in the stabilization stage, with all its units operating and producing fuels in specification to meet national demand.

The above group of people accompanied by our CEO, Cristina Fung, highlighted the high professional value of those who work at the plant. Mr. Adrianzén said he verified the stabilization process of the modern Petroperú refining complex, which will last until the end of the year and then, he said, the optimization stage will begin, where it is expected to finally reach the goals set by the Company.

"In this modern plant nothing is wasted, and gasoline, naphtha and diesel, among other high-quality fuels, are already being produced" he added, confident that the expected production levels will soon be reached.

On the other hand, the Prime Minister highlighted the government support provided to Petroperú, which will allow the Company to continue operating efficiently. *"It is essential to adopt a new form of management that guarantees the success of the investments made in Talara"*, he said, expressing his confidence that in this way the Company will achieve positive results, as projected.

About Petroperú

Established in 1981 as a Public Limited Company pursuant with Legislative Decree No 43 (founded in 1969), Petroperú is one of the largest hydrocarbon corporate entity in Peru in terms of total sales and the largest enterprise of the Peruvian sovereign (100% owned by Peru). Likewise, it is also the Peru's largest refiner in terms of refining volume capacity and form a critical part of the country's energy infrastructure and economy. Also, it has the largest distribution network for crude oil and refined products in the country, and it is the sole provider of refined products to certain areas of Peru. It is also the concessionaire and operator of Peru's main oil pipeline, the "Norperuano Oil Pipeline", which links the crude oil production fields in the northern rainforest of Peru with our facilities in the Port Bayovar near our Talara Refinery. Its business is comprised primarily of midstream and downstream but also upstream petroleum activities, including: the refining and blending of crude and intermediate hydrocarbon products, the distribution and sale of refined products through our wholesale distributors and associated retail service stations and direct sales, the transportation of crude through the Norperuano Oil Pipeline, the concession of Blocks I, VI, Z-69, 64 and 192, and the leasing of certain of its facilities to third parties.
