

PETROPERÚ GUARANTEES FUEL SUPPLY DURING PORT CLOSURES

Lima, Peru, May 06, 2025 – **Petróleos del Peru S.A. "Petroperú" or "the Company" (OTC:PETRPE)** announces that during April 2025 and after the anomalous waves registered on the Peruvian coast, the Directorate of Hydrography and Navigation of the Peruvian Navy ordered the closure of up to 68 ports nationwide, which generated an accumulated of more than 20 days of inactivity in the port facilities of the Talara Refinery.

This situation affected the loading and unloading of crude oil and finished products at the Talara Refinery at its Multibuoy terminals Negritos, Punta Arenas, the Petroperú Liquid Cargo Dock and the MU2 Hybrid Dock.

In this sense, Petroperú has ordered a temporary pause in the processing units of the Talara Refinery due to the high level of accumulated inventories, a measure that has been communicated to Osinermin (the Regulatory and Supervisory Institution of the Peruvian energy sector).

The company maintains permanent coordination with the maritime authority to monitor conditions and resume its operational activities safely.

About Petroperú

Established in 1981 as a Public Limited Company pursuant with Legislative Decree No 43 (founded in 1969), Petroperú is one of the largest hydrocarbon corporate entity in Peru in terms of total sales and the largest enterprise of the Peruvian sovereign (100% owned by Peru). Likewise, it is also the Peru's largest refiner in terms of refining volume capacity and form a critical part of the country's energy infrastructure and economy. Also, it has the largest distribution network for crude oil and refined products in the country, and it is the sole provider of refined products to certain areas of Peru. It is also the concessionaire and operator of Peru's main oil pipeline, the "Norperuano Oil Pipeline", which links the crude oil production fields in the northern rainforest of Peru with our facilities in the Port Bayovar near our Talara Refinery. Its business is comprised primarily of midstream and downstream but also upstream petroleum activities, including: the refining and blending of crude and intermediate hydrocarbon products, the distribution and sale of refined products through our wholesale distributors and associated retail service stations and direct sales, the transportation of crude through the Norperuano Oil Pipeline, the concession of Blocks I, VI, Z-69, X, 64 and 192, and the leasing of certain of its facilities to third parties.
